The Institution of Electronics and Telecommunication Engineers (IETE)

The Institution of Electronics and Telecommunication Engineers (IETE) is India's leading recognised professional body for producers and users of electronics, telecommunication, and IT and related sciences and technology. Founded in 1953, IETE has over 50,000 members and 70+ chapters across India.

The IETE Kolkata Chapter is a regional chapter of the Institution of Electronics and Telecommunication Engineers (IETE), India's premier professional body for electronics and telecommunication engineering. Located in the heart of Kolkata's Electronics Complex, we serve professionals, academics, and students across West Bengal.

Established in May 2025, the MCKVIE IETE Student Forum (ISF) is a premier professional student chapter at the MCKV Institute of Engineering in Howrah, West Bengal, driven by a robust membership of 349 students from the CSE and IT departments. To ensure its members are industry-ready, the ISF regularly orchestrates technical seminars, expert lectures, and hands-on workshops focused on building competencies in emerging domains.

About the Institute

MCKV Institute of Engineering (MCKVIE), established in 1999 in West Bengal, is a leading engineering institution committed to fostering technological learning and innovation. Accredited by NAAC with an 'A' Grade, the institute is autonomous, affiliated with MAKAUT, and approved by AICTE. Over the past 25 years, MCKVIE has created a dynamic academic environment that nurtures young minds through quality education, innovation, research and industry-oriented training aligned with the needs of the digital age.

The institute offers a wide range of undergraduate programs in Automobile, Computer Science, Electrical, Electronics and Communication, Information Technology, and Mechanical Engineering, BBA along with emerging disciplines such as CSE (Data Science) and CSE (AI & ML). Several programs are NBA-accredited. It also offers postgraduate courses including M.Tech. in Artificial Intelligence & Data Science, M. Tech. in Electronics and Communication Engineering, and MBA, designed to meet evolving industry demands.

MCKVIE is known for its modern infrastructure, experienced faculty, and strong industry-academia collaborations and student-centric approach to learning. The institute actively promotes innovation, creativity and problem-solving abilities among students through project-based learning, technical

activities, interdisciplinary exposure, and skill-development initiatives. By encouraging an innovation-driven mindset, MCKVIE continuously strives to shape competent professionals and responsible technocrats for the future.

Adding to its achievements, MCKVIE has been selected under the National Quantum Mission by the Department of Science & Technology for its proposal on “Undergraduate Teaching Laboratories in Quantum Technologies.” It is among only 23 institutions nationwide and the only private engineering college in West Bengal to receive this recognition. MCKVIE stands as a hub of academic excellence, innovation, and forward-thinking education.

About the Program

The Eastern Zonal ISF Congress is a dedicated forum exploring the critical intersection between advanced artificial intelligence and the pressing need for environmental and social responsibility. As technology rapidly evolves, the program challenges engineers and researchers to shift the focus of AI development from pure performance and commercial gain toward creating solutions that actively protect the planet and improve the quality of human life.

The core objective of the congress is to inspire and foster the development of intelligent systems that are not only powerful but also ecologically mindful and socially equitable. To explore this vision, the program features a comprehensive schedule of events:
