## From The President's Desk

Sunil

As the President of IETE, it is my pleasure to present this year's report which outlines the achievements of our organization over the last one year. As I write this message, optimism and enthusiasm for our future endeavors intermingle with my feelings of gratitude. I reflect on our accomplishments of the year gone by and feel a great sense of contentment. The year brought remarkable progress and glory to the Institution solidifying partnerships to advance knowledge in the areas of significance to the community.

The last twelve months have been marked by numerous milestones for IETE. Frequent efforts were undertaken to motivate the centres, often involving a combination of strategies aimed at fostering engagement and improving performance. I myself made a visit to the centres including the ones in the remote locations, to understand their challenges and find practical solutions to their problems. Several efforts contingent to the particular centre's circumstances have been adopted, including setting clear goals, providing regular

feedback, offering incentives, and creating a supportive environment, with an objective to enhance motivation and drive positive outcome. **With collected efforts the long-awaited job of renovation of IETE Mumbai Centre was successfully completed resulting in improved facilities and infrastructure of the centre. The renovated campus was inaugurated on 20<sup>th</sup> June, 2025.**

To augment IETE's visibility and reach a broader audience, the institution actively participated in various exhibitions and hosted several Conferences. **IETE joined the Microwave, Antenna Propagation Conference (MAPCON-2024) in Hyderabad from 9-13 Dec 2024.** The conference served as a prominent international forum for exchanging cutting-edge research and technologies in microwaves and antennas, featuring insights from numerous national and international experts. **A three-day BEL-IETE Symposium (BIS 24) was organized collaboratively by Bharat Electronics Ltd and IETE Bangalore from 19-21<sup>st</sup> December 2024 at BEL Academy of Excellence (Nalanda) with focus on "Artificial Intelligence, Cyber Security, IOT and Aerial Vehicle Systems for Next Generation".** This was the second BEL-IETE Symposium following BIS 22, which was held in May 2022. IETE also conducted joint activities with the three IEEE Societies in accordance with the commitment made during MAPCON 2023. **Shri Sunil, President IETE participated in the conference "SPACE-2025" to represent IETE. The conference was organized by IEEE from 21<sup>st</sup>-23<sup>rd</sup> July 2025 at Bengaluru to focus on Space, Aerospace and Defence. President IETE's participation highlights the IETE's engagement with the space industry and**

its commitment to advancing technology for humanity.

This past year also saw the IETE Community coming together like never before through giving campaigns and events. Several MoUs were signed and collaborative meetings were held with Heads of other Professional bodies/Institutes of similar nature with a view to broaden opportunities for members of professional bodies through research, networking, and professional development activities. These initiatives raise awareness of the power of education to improve lives and drive progress on today's most critical challenges, exemplifying IETE's Foundational belief that cultivating knowledge, fostering inclusivity and enabling excellence are key to building a better world.

**A concerted meeting between the presidents of IETE and IEEE (EMC-S, MTT-S, and AP-S) was held in the evening on December 11, 2024.** The Presidents of both the Professional bodies had a productive conversation on how the two Institutions can promote their mutual interests with collaboration and association. The meeting served as a stepping stone on the future plans for joint partnership. **An MOU was signed with South Asian University (SAU) on Dec 09, 2024** with an objective of enhancement in collaborative framework on emerging technologies and their impact on economy & society and with immediate focus on Diploma and Short Term Courses in emerging technologies. **A MoU was also signed between the IETE and the National Forensic Sciences University (NFSU) on April 15, 2025.** This MoU aims to facilitate collaboration in education, joint courses and programs, knowledge sharing, and career advancement in areas like

cybersecurity and digital forensics. The signing ceremony took place at Vigyan Bhawan in New Delhi, with key figures including the President of IETE, the Minister of State for Home Affairs, and the Vice Chancellor of NFSU.

**On 6<sup>th</sup> August 2025 President IETE and President BES had an interactive meeting with Prof T G Sitharaman, Chairman, All India Council of Technical Education (AICTE) to discuss on Professional Engineers Bill 2025.** The Bill shall provide for the regulation and development of the profession of engineering in India and aims to propose a legislative framework for establishment of Indian Professional Engineers Council (IPEC) by an Act of Parliament. **President IETE also had a collaborative meeting with Prof Anil D Sahastrabudhe, Chairman National Board of Accreditation (NBA) and Former Chairman of AICTE on 8<sup>th</sup> August 2025 to discuss on the initiative of IETE for Viksit Bharat 2047.**

## MEMBERSHIP ACTIVITIES AND ACHIEVEMENTS

The Institution of Electronics and Telecommunication Engineers (IETE) continued its tradition of excellence in fostering professional development, technological advancement and academic outreach. This report outlines the key membership-related activities and achievements over the year.

The year 2024-25 has been a milestone period for IETE in terms of expanding its membership base, enhancing technical competency, and strengthening its societal relevance. Through dynamic leadership, collaborative initiatives, and active member participation, IETE continues to serve as a beacon of excellence in the fields of electronics, telecommunications and ICT.

Membership remained a principal focus area for IETE this year, with several initiatives undertaken to enhance visibility and encourage enrolment. Active participation in key events such as the IEEE MAPCON Conference, BES Conference, and various national and international forums helped in promoting the IETE membership. Dedicated membership drives were launched through the combined efforts of IETE HQ and its Centres/Sub-Centres across India and abroad, particularly in the USA.

To further support the expansion, the Institution announced a 33% discount for members from SAARC countries, as well as special discounts on bulk membership enrolments from the same institution or organization.

One of the major achievements this year has been the significant growth in international membership. Despite challenges such as time zone differences and the need for real-time

support, the Membership Team at IETE HQ ensured prompt, accurate, and personalized assistance to all international applicants often extending support beyond regular office hours. As a result, around 1200 new foreign members were enrolled.

## STRATEGY FOR GROWTH

**Membership Drive Campaigns:** A series of targeted membership campaigns were successfully conducted across engineering colleges, research institutions, and industry sectors, leading to a significant increase in student and corporate memberships.

One of the major achievements this year has been the **significant growth** in international membership. Despite challenges such as time-zone differences and the need for real-time support, the Membership Team at IETE HQ ensured prompt, accurate, and personalized assistance to all international applicants often extending support beyond regular office hours. As a result, **around 1100 new foreign members were enrolled.**

**Enhanced Member Services:** Upgraded digital membership portal to streamline applications, renewals, and access to IETE publications and webinars. Strategic collaborations were signed with universities and tech firms to offer certification and internship programs for updating skills in the rapidly changing technological scenario.

**Best Centre and Student Forum Awards:** Centres showing exceptional performance in membership engagement and technical activities were awarded during various IETE functions.

This remarkable progress is a testament to the

membership team's dedication, perseverance, and tireless efforts. These collective efforts have helped strengthen the IETE community and streamline member engagement across all levels.

## CENTRES/SUB-CENTRES

This year, the centres have organized a diverse range of activities. These activities include guest lectures, workshops, technical competitions, webinars, and more, aimed at enhancing students' practical skills, theoretical knowledge, and overall understanding of the field. Several of them were women centric which were organized with a view to promote the advancement and empowerment of women in various fields such as Engineering, politics, education, medical etc. Online seminars and webinars are conducted on various topics, including career guidance, recent advancements in specific fields, and the impact of technology on society. 71<sup>st</sup> Foundation Day was also celebrated with great grandeur at all centres/sub centres. Among other events which were organized are Engineers' Day, Students' Day, Independence Day, WT&ISD etc. A large number of Internship and online training programmes were also organized for the Engineering students to create awareness regarding latest technology and help students to bridge the gap between course curriculum and current technology. Many centres also initiated Membership drives geared toward targeting and attracting new Members to join IETE. However, there is still a lot remains to be done. I appeal to the Executive Committee of all centres/sub-centres to accelerate their pace and put in more fervent efforts towards Membership growth and undertake more activities with a view to generate revenue.

## PUBLICATIONS & AWARDS

By publishing cutting-edge publications that embody the spirit of exceptional advancements in information and communication technology, IETE shows its dedication to promoting a deep national transformation. Since 1953, IETE has published archive-worthy books, journals, newsletters, and conference proceedings.

India is becoming an international player in high-tech defence system manufacture. Innovative research in CSIR labs and universities nationwide yields remarkable results. Thus, the institution's online publication site receives many new contributions everyday, demonstrating the dynamic character of research and development in the R&D labs, which are full of motivated researchers. Our three journals continuously meet high academic standards and advance in global publication competition.

We can rightfully be proud of the increased international recognition of the IETE Journals. We are overwhelmed by the increasing number of accomplished professionals from both domestic and international contexts who have expressed their willingness to serve as Editors/ Reviewers. This tendency underscores the worldwide recognition of the standards that our journals have established. In addition, it is a testament to the diligent collective endeavours of our Editorial Board Members, who are leveraging the repute of our journals.

In the past two years, IETE Publications has diligently worked to eliminate the backlog of accepted articles and has since published an increased number of articles (70-80) per issue in the IETE Journal of Research. This success is attributed to the strategy that was

recommended by the Editor-in-Chief and T&F, our co-publisher, which enabled us to publish the number of papers. Certainly, it was a formidable obstacle; however, we were able to manage it by working together with the IETE Publications Committee, Editorial Board members, and Publication Staff. Presently, the IETE Journal of Research published on a monthly basis contains approximately 27-30 articles.

In order to prevent the accumulation of accepted articles that are awaiting publication, a variety of measures have been implemented and then subsequently they are published. The number of editors and reviewers changes and grows. This provides Editors with a greater number of options when selecting Reviewers and helps Reviewers who are overloaded with urgent academic obligations. In one way, these changes assist with getting rid of the embarrassing backlog of unpublished articles. In another, this let authors know about the status of their works in a time frame that matches international publications.

The current Board (*IETE Journal of Research*), which consists of **Prof Shibam K Koul** (EIC), **Prof Ranjan K Mallik** (Dy EIC), and **Prof Arun Kumar** (Dy EIC), is carrying out its duties with precision and going above and beyond. These Chief Members are being assisted additional Deputy Editors-in-Chief: **Prof Nagendra Pathak** (IIT Roorkee), **Prof Monika Aggarwal** (IIT, New Delhi), and **Prof Parul Garg** (IIT, New Delhi).

**Professor (Dr) Jagadesh Kumar Mamidala**, who recently relinquished the office as Chairman, University Grant Commission continues to provide his sterling guidance for steering the bimonthly, *IETE Technical Review*. Editorials penned by him reveal his exceptional ability to

delineate the galloping advances engulfing us. We are truly grateful for his kind contributions and the insightful words he shares. We are pleased to inform the members that **Professor (Dr) Jagadesh Kumar Mamidala**, has been selected as the co-recipient of the IETE Lifetime Achievement award this year. IETE Publications Team congratulates Prof Jagadesh Kumar for his dedication and unwavering support to IETE. He will be conferred the award during the 71<sup>st</sup> Annual IETE Convention, taking place at CSIR-CSIO, Chandigarh.

Biannual, *IETE Journal of Education* is being mentored by **Professor Raj Senani**, Honorary Professor, Netaji Subhash University of Technology, New Delhi. There were quite a few in-depth review articles that were published, and they were met with praise and acclaim from readers who are quite specific.

Last year, our journals were presented with several offers for Supplement Issues; however, we had to decline them with regret, primarily, due to the current challenges being faced with retraction issues in the publishing arena. IETE aims to avoid unnecessary complications; therefore, these open-access, online issues are not being accommodated as of now.

We are especially appreciative of the exceptional team at Taylor & Francis for their support in guaranteeing that our journals adhere to the most stringent international standards. The professional standards and guidance they offer serve as a reliable platform for the continued growth of researchers, thereby enhancing the reputation of our publications on a global scale.

We are grateful to M/s Dolphin Printo, our press, for their support and for ensuring that the issues are published on time for distribution

to our subscribers. Their commitment to maintaining the quality and standards of our journals is commendable. We extend our heartfelt gratitude to the entire team of Shri D S Negi.

We would like to express our sincere appreciation to all members of the editorial team for their focused and determined approach in reviewing a continuously growing number of manuscripts. The growing number of requests to bring out Special Supplements of IETE Journals is indicative of the journal's significance and widespread international interest.

### Financial Assistance

The Science and Engineering Research Board (SERB), Department of Science & Technology (DST) provided IETE with financial support for the printing of *IETE Journal of Research* and *IETE*

*Technical Review* for the financial year Rs 4 lakhs. In accordance with the Sanction Order, IETE is publishing the SERB logo in all issues of its journals for the duration of the sanction.

### SUBSCRIPTION TO IETE PUBLICATIONS

There were 484 paid subscribers to IETE journals from January to December of 2024. And from January through August of 2025, we had 438 subscribers. IETE is trying to make efforts to boost technical information dissemination and increase subscription revenue from IETE journals. Libraries and institutions are sent letters on a regular basis urging them to subscribe to IETE periodicals. The latest subscription rates are available at the following link

<https://www.iete.org/files/subscription-rates-2025.pdf>

### ROYALTY

- The fact that the royalty payment for our three titles—the *IETE Journal of Research*, the *IETE Technical Review*, and the *IETE Journal of Education*—from co-publisher Taylor & Francis, UK, for the January-December 2024 period was Rs. 16,55,711—70% more than the previous year's amount of Rs. 9,74,662—is encouraging.
- The forthcoming royalty payment from the National Book Trust (NBT) for Prof M R Chidamabara's book "*Robot & Robotics*" for the period spanning January to December 2024 is approximately Rs 2,11,000/-. Of this amount, two-thirds will be retained by the author, while one-third will be granted to IETE.

- The royalty payment from the two books of Prof S C Dutta Roy, DFIETE for the period of January 2024 to December 2024 is pending as amount collected is under the threshold of minimum slab (100 SGD). So, the amount will be accrried forward to the future royalties. The titles of the books are *Circuits, Systems & Signal Processing* and *Topics in Signal Processing*.

### IETE BOOK SERIES

It is important to mention that Professor SC Dutta Roy, an esteemed Distinguished Fellow of the Institution and Emeritus Professor of IIT New Delhi, collaborated with IETE to publish two volumes: *Circuits, Systems and Signal Processing* and *Topics in Signal Processing*. Prof Dutta Roy meticulously edited these works. At present, we are working on his third book in the series, titled “*Topics in Circuit Theory - Passive, Active and Distributed.*” The IETE has received the text matter and is presently in the process of proofreading the pages. Springer-Nature will publish the results in the foreseeable future.

### IETE NEWSLETTER

The IETE Newsletters, which are published three times annually, provide members with information regarding the technical activities of our Centres, Sub-Centres, and ISFs, as well as Headquarters. In addition to webinars, seminars, symposia, and guest lectures on emerging and evolving subjects, the numerous faculty development programs that ISFs have implemented are particularly noteworthy. In addition to fostering a sense of pride in being a

member of the nation’s foremost professional organisation, they provide students with the opportunity to network with distinguished professionals, gain knowledge about the remarkable advancements in the field of information and communication technology, and more. The Publications Section is inundated with data, which requires a significant quantity of effort to compile, edit, proofread, and cross-check, in addition to the selection of appropriate photos.

**Digitisation of past records:** Lastly, IETE Publications has initiated the digitisation of past records, a process that has been long overdue, since last year. IETE Journals are already digitised and accessible, as we are all aware. However, the IETE Publications Staff has now successfully scanned the institution’s historical records, including Annual Reports, IETE Diaries, and Meeting Minutes from its Committee (Publications) and Board (Board of Awards). We are currently digitising the old Governing Council Minutes for future reference and ensuring that the information is readily accessible. The IETE headquarters’ basement, which has been renovated to house the former library books and scanning workstation, is where this work is being done. To view the archives, go to [www.iete.org](http://www.iete.org).

## IETE AWARDS

IETE honors the outstanding work of its members and other professionals in electronics, telecommunications, computers, information technology, and engineering-related fields through its annual and biannual awards. These awards and honors are very important for raising the institution's image and helping it reach its goals. IETE has thirty one Main Awards for individual members for their outstanding work in certain categories. It also gives eight corporate awards to businesses or organizations for outstanding performance, eight awards to authors for their best technical or research articles published in IETE journals during the year, and academic awards to IETE student members for outstanding academic performances in specific sections of their studies. Dormant years do not result in the announcement of certain biennials awards.

To make the present process for selecting Awardees for IETE Awards more transparent, fair, and systematic, a "Panel of Experts" has been established for each award. This Jury panel is comprised of five or more subject matter experts from prestigious Institutions/Universities/Engineering Organizations who are chosen based on their subject matter expertise, academic/research experience, and managerial background. The Jury considers each award application in relation to its criteria and makes impartial recommendations to the Board of Awards regarding the selection of nominees for each award.

The nominations forms for IETE Main and IETE Corporate Awards are regularly reviewed to incorporate transparent, fair and impartial procedures. The Board of Awards (BoA)

and the Jury experts of the relevant panel evaluate the nominations received and give their independent recommendations in favour of outstanding nominees. Thereafter the recommendations of the Board of Awards (BoA) and the Jury members are recorded and processed and ratified by the IETE Governing Council. Lectures by awardees are organized at IETE Centres nearest to the location of awardee.

To give wider publicity to attract good response to IETE Awards, "Call for Nominations" is published in Nov-Dec and Jan-Feb issues of IETE Journal of Research and IETE Technical Review. In addition, brochures and "Call for Nominations" for IETE Main Awards and IETE Corporate Awards are sent to Centres/Sub-Centres and made available on IETE Website. For more publicity, a one-page advertisement about the different IETE Awards is also published in publications such as ELCINA magazine.

# Independent Auditor's Report

The Members

Governing Council of **The Institution of Electronics and Telecommunication Engineers**  
2, Institutional Area, Lodi Road New Delhi-110 003

## Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of the **Institution of Electronics and Telecommunication Engineers** ("the Institute") which comprises the Balance Sheet as at 31 March 2025 and the Statement of Income & Expenditure for the year ended 31 March 2025, which incorporated the financial statements of the Headquarter audited by us and 43 Centers audited by the other auditors and 3 Centers (unaudited) as certified by the management and a summary of significant accounting policies and other explanatory information.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Institute in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of

the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Emphasis of Matter:

- (a) The uniform accounting policies has not been followed by all the Centers regarding accounting of Depreciation.
- (b) Some Centers do not have proper records showing full particulars including details and situation of fixed assets and also there is no practice of Physical Verification of the Fixed Assets undertaken by the Management during the year under the audit.
- (c) Some Centers do not have proper accounting of consumption of Inventory and it is also reported that the inventories are not physically verified.
- (d) Upon going through the Audit reports provided by the Auditors of the Centers, some discrepancies related to accounting, booking of income and expenses, reconciliation of Bank Accounts and other Current Assets are reported, which may impact the Income and Expenditure Account as well as reporting of assets/liabilities.
- (e) The entity having total 63 centers but we have received only 46 centers out of these 3 centers were unaudited and remaining 17 centers not received and mention as below: -

### Name of centres for which we have not received balance sheet

S. No.	Particulars	S. No.	Particulars
1	Kakinada	9	Jabalpur
2	Yavatmal	10	Jalandhar
3	Agra	11	Mankapur

5	Coimbatore	13	Patna
6	Jammu	14	Warangal
7	Dharwad	15	Mysore
8	Imphal	16	Ranchi
		17	Kathmandu

### Centers which are unaudited but certified by the management

S. No.	Particulars	S. No.	Particulars
1	Vadodara	2	Surat
3	Burdwan		

### Adverse Opinion:

According to the information and explanation given to us and based on our audit material, we want to draw members attention to following points:-

### **Basis for Adverse Opinion:**

We hereby Qualify our report with respect to the following points :-

1. We have not received financials of 17 centers due to which we have not incorporated in the financials of the entity.
2. Many of the centers had not followed proper accounting method which does not gives true and fair views.
3. We were unable to obtain sufficient appropriate audit evidence to support the balances of Loan and Grant given by head office to various centers. The management was unable to provide us Financial Statements of all centers, which was necessary to perform a complete and thorough reconciliation of the head office loan balances and Grant given by head office. This limitation prevented us from adequately evaluating the accuracy and completeness of these balances.
4. TDS of the multiple previous years has not been adjusted in the books. Current year TDS is subject to reconciliation.
5. We are unable to obtain sufficient and appropriate audit evidence to determine the completeness and existence of Fixed assets. We also were unable to determine the accuracy and valuation of depreciation expense, as the calculation of depreciation is subject to reconciliation to the physical inventory of fixed assets.

Consequently, we are unable to express an unqualified opinion on the financial statements.

In our opinion, because of the omission of the information mentioned in the Basis of Adverse Opinion, the financial statement do not give a true and fair view in conformity with the accounting principles generally accepted in India of the Balance sheet of the Institute as at 31<sup>st</sup> March, 2025, and its Income and Expenditure account for the year ended on that date.

# Independent Auditors' Report

The Members

Governing Council of

**The Institution of Electronics and Telecommunication Engineers**

2, Institutional Area, Lodi Road New Delhi-110 003

## Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of the **Institution of Electronics and Telecommunication Engineers** ("the Institute") which comprises the Balance Sheet as at 31 March 2025 and the Statement of Income & Expenditure for the year ended 31 March 2025 incorporating the financial statements of the Headquarter and CPF audited by us.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Institute in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Emphasis of Matter:

During our audit of the financial records of IETE HQ, it was observed that the organization has granted a deduction under Section 80C of the Income Tax Act, 1961, for employee contributions made towards an unrecognized provident fund. According to the provisions of the Income Tax Act, contributions to an unrecognized provident fund do not qualify for deductions under Section 80C. This non-compliance with statutory requirements has resulted in an improper claim of tax benefits by the employees.

### Opinion

We have audited the accompanying financial statements of **Institution of Electronics and Telecommunication Engineers** (“the Institute”), which comprise the Balance Sheet as at 31st March, 2025, the Statement of Income and Expenditure account for the year ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the Balance sheet of the Institute as at 31st March, 2025 and its Income and Expenditure account for the year ended on that date.
