

MoU between IETE and AI4India

Dear Sir/Madam,

In a significant step forward for IETE to adopt an "AI first approach", a strategic partnership between IETE and AI4India.org was officially announced on 3rd November 2025 on IETE Foundation Day. I am glad to inform you that the MoU between IETE and AI4India.org has been signed on 09 Dec 2025 at IETE HQs.

This collaboration is crucial as AI is having a transformative impact across all aspects of society, especially in science, technology, and engineering. The partnership with AI4India is designed to prepare IETE members for the AI era and will offer several key benefits:

1. IETE members will receive "The AI4India Weekly", a newsletter focused on building awareness of AI developments, particularly those based in India. This newsletter will also invite contributions from IETE members (papers, blogs, event info). The link for the AI newsletter is available on the IETE website and is here also <https://ai4indiaweekly.substack.com/p/indias-rdi-fund-the-next-big-gamechanger> .
2. The partnership will help us to jointly develop and curate a series of education programs and modules. These will range from fundamental courses for general familiarity to sophisticated technical courses taught by subject experts
3. IETE shall plan to conduct a series of seminars and conferences on AI at various IETE centres. These events will feature domain experts and serve as a platform for members to showcase their AI-related work.

AI4India.org is on a mission to make AI accessible to all Indians, focusing on democratizing access and ensuring social and inclusive growth. The vision is to create an ecosystem that empowers individuals and organizations to leverage AI for positive impact.

This Memorandum of Understanding is non-financial in nature.

We believe this MOU will be instrumental in positioning IETE and its members at the forefront of the AI revolution.

This is for your kind information.

With Kind Regards

(Dr. Manju Mam)

Secretary General, IETE
