#### About IETE

The Institution of Electronics and Telecommunication Engineers (IETE) is India's leading recognized professional society devoted to the advancement of Science and Technology of Electronics, Telecommunications, & IT. Founded in 1953, it serves more than 69,000 members through its 52 Centres spread all over India and abroad. The Institution provides leadership in Scientific and Technical Areas of direct importance to the national development and economy. Government of India has recognized IETE as a Scientific and Industrial Research Organisation (SIRO) and also notified it as an educational Institution of National eminence. The objectives of the IETE focus on advancing communications and electronics

technology. The IETE conducts and sponsors technical meetings, conferences, symposia and exhibitions all over India. Publishes technical journals and provides continuing education as well as career advancement opportunities to its members.

### OBJECTIVES

To promote the general advancement of Telecommunication Engineering, Electronics, Computer Science and Engineering, Information Technology and allied subjects and their applications and to facilitate the exchange of information and ideas on these subjects amongst the members of the Institution and otherwise, and for that purpose:

- to hold meetings of the Institution for reading and discussing communications bearing upon Telecommunication Engineering, Electronics, Computer Science and Engineering, Information Technology and allied subjects, or the application thereof or upon subjects relating thereto.
- to hold and promote Exhibitions of instruments, apparatus, machinery or other appliances connected with Telecommunication Engineering, Electronics, Computer Science and Engineering, Information Technology and allied subjects or their applications.
- to print, publish, sell, lend or distribute proceedings or reports of the Institution or any papers or communications, works or treatise on Telecommunication Engineering, Electronics, Computer Science and Engineering, Information Technology and allied subjects or their applications, or any abstracts thereof or extracts there from.
- to encourage research, and promote the development of appropriate technologies in Telecommunication Engineering, Electronics, Computer Science and Engineering,

Information Technology and allied subjects and their applications.

- To make grants of money, books, apparatus or otherwise for the purpose of promoting invention and research in Telecommunication Engineering, Electronics, Computer Science and Engineering, Information Technology and allied subjects or their applications or in subjects connected therewith.
- to establish professional and technical standards in Telecommunications and conduct such tests and/ or examinations as may be required for this purpose.
- to undertake such other activities which will further the objects and aims of the Institution and advance the science and technique of Telecommunications, Electronics, Computer Science and Engineering, Information Technology and allied subjects.

### Some Highlights

IETE has taken vigorously in automation of system. Online registration of members and examinations and automation of Council election process will be landmark achievements in this regards.

IETE has signed a number of Memorandum of Understanding (MoU)/ Agreements with Institutions/ bodies like Institution of Engineers (I), Institution of Electrical and Electronics Engineers (IEEE), USA, IEEE Communications Society (IEEE ComSoc), Institution of Electrical Technology, UK (IET, UK), Computer Society of India (CSI) and Bharti Airtel. Similarly, MoU/ Agreements will be signed in the first quarter of 2008 with IGNOU and SAPNET. These agreements will give wider exposure to our members and also help students in their placement.

#### About IEI

The Institution of Engineers (India) is the largest multi-disciplinary engineering professional society, established with a view to promote and advance the science, practice and business of engineering.

The aims and objectives for which the IEI is constituted, are to promote the general advancement of Engineering and Engineering Science and their applications and to facilitate the exchange of information and ideas on those subjects, amongst the members and the persons attached to the Institution.

IEI functions with and amongst the professional engineers, academicians and research workers and

provides a vast array of technical, professional and supporting services to the government, the industries, the academic and the engineering community.

IEI is the pioneer body to introduce non-formal engineering education programme, successful completion of which is recognised as equivalent to a degree in engineering by the Government of India, the Union Public Service Commission, State Governments and public/ private sector organisations.

IEI with its Headquarters at Calcutta is administered by a national Council with the President as its Head and operates through 18 State Centres & 76 Local Centres located at capital and towns of industrial and academic importance all over the country. The Council consists of the President, 2 immediate Past Presidents, 16 elected members from the eligible state centres, 28 representatives elected from divisions, 18 Chairmen of State Centres, 14 Chairmen of eligible Local Centres, 5 Chairmen of Autonomous Fora. 4 prominent engineers are also co-opted on the Council. 2 Members from the above members are appointed by the President as Vice Presidents.

### About Computer Society Of India

Computer Society of India established in the year 1965 is today the largest IT professionals Society in India. The purpose of the Society are scientific and educational directed towards the advancement of the theory and practice of computer science, computer engineering and technology, systems science and engineering, information processing and related arts and sciences. It shall endeavour to:

- Promote interchange of information, in these disciplines and sub-disciplines, amongst the specialists and between specialists and the public.

- Encourage and assist the professionals engaged in these fields to maintain the integrity and competence of the profession and Foster a sense of partnership amongst the professionals, engaged in these fields.

Means to these ends are the holding of meetings for the reading and discussing of professional papers, the publication and circulation of works of literature, science and art pertaining thereto and any other activities necessary, suitable and proper for the fulfillment of these objectives.

In a span of less than 4 decades, the organization has grown to an evitable size of 30,000 strong members consisting of professionals with varied backgrounds including Software developers, Scientists, Academicians, Project Managers, CIO's, CTO's IT vendors to just name a few. It has spread its branches all over the country. Currently, rooted firmly at 62 different locations, CSI has plans of opening many more chapters and activity centres in smaller towns and cities of the country. The idea is to spread the knowledge, and provide opportunities to as many interested as possible.

### **About IEEE**

A non-profit organization, IEEE is the world's leading professional association for the advancement of technology. The IEEE name was originally an acronym for the Institute of Electrical and Electronics Engineers, Inc. Today, the organization's scope of interest has expanded into so many related fields, that it is simply referred to by the letters I-E-E-E (pronounced Eye-triple-E).

Through its global membership, IEEE is a leading authority on areas ranging from aerospace systems, computers and telecommunications to biomedical engineering, electric power and consumer electronics among others. Members rely on IEEE as a source of technical and professional information, resources and services. To foster an interest in the engineering profession, IEEE also serves student members in colleges and universities around the world.

### **IEEE has: -**

- » more than 370,000 members, including more than 80,000 students, in over 160 countries;
- » 319 sections in ten geographic regions worldwide;
- » 1676 chapters that unite local members with similar technical interests;
- » more than 1,526 student branches at colleges and universities in 80 countries;
- » 39 societies and 5 technical councils representing the wide range of technical interests;
- » 132 transactions, journals and magazines;
- » more than 450 IEEE sponsored or cosponsored conferences worldwide each year;
- » over 900 active IEEE standards and more than 400 in development.

### **About IEEE Communications Society**

A Community comprised of a diverse group of industry professionals with a common interest in advancing all communications technologies. To that end, the Society sponsors publications, conferences, educational programmes, local activities, and technical committees that:

- Foster original work in all aspects of communications science, engineering and technology.
- Encourage the development of applications that use signals to transfer voice, data, image, and/ or video information between locations.
- Promote the theory and use of systems involving all types of terminals, computers, and information processors; all pertinent systems and operations that facilitate transfer; all transmission media; switched and unswitched networks; and network layouts, protocols, architectures, and implementations.
- And strongly advance developments toward meeting new market demands in systems, products, and technologies such as personal communications services, multimedia communications systems, enterprise networks, and optical communication systems.

#### **About IGNOU**

The Indira Gandhi National Open University was established by an Act of Parliament in 1985. Today it serves the educational aspirations of about 1.5 million students in India and 35 countries abroad through 11 Schools of Studies and an elaborate network of 58 regional centres, 7 sub-regional centres, 1400 study centres, and 41 overseas centres. The University is making all efforts to take higher education to the doorsteps of the hitherto unreached. As of now, we cater to about 10% of all students enrolled in higher education in the country are enrolled with IGNOU. Apart from teaching and research, extension and training form the mainstay of its academic activities. It also acts as a national resource centre; and more importantly, functions as an apex body to promote and maintain standards of distance education. The University has its presence in 35 countries. The Commonwealth of Learning has recognised it as one of its centres of excellence. It also has the unique privilege of hosting the Secretariats of SAARC Consortium of Open Distance Learning (SACODiL) approved by Heads of Govts. of SAARC Nations and Global Mega Universities Network (GMUNET) initially promoted by UNESCO. The vision statement of the university reads as:

Indira Gandhi National Open University, the National Resource Centre for Open and Distance Learning with international recognition and presence, shall provide seamless access to sustainable and learner-centric quality education, skill upgradation and training to all by using innovative technologies and methodologies and ensuring convergence of existing systems for massive human resource required for promoting integrated national development and global understanding.

In order to fulfil the vision of democratising higher education and providing access to all segments of people, the University

- imparts education and knowledge through various flexible means suited to the open and distance education mode, including information and communication technologies;
- provides higher education and training to large sections of population, particularly the disadvantaged segments of the society;
- promotes national integration and the integrated development of human personality;
- encourages, co-ordinates and assists open universities and distance learning systems to improve standards in such systems.

#### **IGNOU has two main functions:**

(i) It offers various academic programmes that lead to Certificates, Diplomas and Degrees. It develops and produces courses for delivery through open learning and distance education mode. IGNOU is also actively involved in research, training and extension education activities.

(ii) In its capacity as an Apex Body, it co-ordinates and monitors distance education system throughout the country. IGNOU has also constituted the Distance Education Council and has provided expertise and assistance to other Open and Distance Learning Institutions in the country.

IGNOU stands significantly apart from other universities because of:

- national jurisdiction
- flexible admission rules

- individualised study: flexibility, in terms of place, pace and duration of study
- use of latest educational and communication technologies
- student support services
- cost-effective programmes
- modular programmes
- resource sharing, collaboration and networking between other Open Universities
