PUBLICATIONS

IETE publications have made significant strides in response to the developments in the fields of Electronics, Telecommunication, Computer Science and Information Technology. We are committed to removing the barriers and practices that often hamper the timely and effective communication of new research findings. IETE is showcasing its achievements in attracting growing numbers of submissions, publishing high-quality research papers, supporting transparency and reproducibility, as well as the careers of new researchers, and exploring new publication formats. IETE has talented academic editorial teams ably led by respective Editors-in-Chief. IETE journals are receiving encouraging response from the research community and their impact factors are increasing consistently.

These publications contribute significantly in achieving the laid down objectives of the Institution. The Institution

has its wide and prominent visibility due to these regular publications which include three IETE Journals, Newsletter and Proceedings. Our journals viz. IETE Journal of Research (JR), IETE Technical Review (TR) and IETE Journal of Education (JE) are the prime resource for disseminating state-of-art, current and futuristic scientific and technical knowledge to a wide cross-section of readership of academia, industries, R&D organizations, libraries, professional engineers and students' community. The IETE Journals are available online (www.ietejournals.org). The members are sent the publications digitally.

IETE Journal of Research is published bi-monthly and covers scientific and technical papers describing original research or novel product/process development work being carried out in India and abroad in the areas of electronics, telecommunications, computer science engineering and information technology. Occasionally special issues are brought out on new and emerging research areas.

IETE Technical Review is also published bi-monthly and covers state-of-the-art review papers and in-depth tutorial papers on current and futuristic technologies keeping in view the interest of students, engineers, scientists, academicians and managers who are desirous to keep themselves abreast of the latest research and developments in the areas of electronics, telecommunications, computer science engineering and information technology. Occasionally special issues are brought out on new and emerging research areas.

Both these journals are a part of **'Web of Science'**, a coveted place amongst the International Journals of Science and Technology.

IETE Journal of Education is a half yearly publication. The journal provides supplementary resources to the students for preparing for their examinations and broadening their understanding of concepts.
