### ITEM-4 IETE JOURNAL OF EDUCATION

4.1 The Committee members deliberated on the nature of articles being published in IETE Journal of Education considering the difficulties that are faced by IETE students while clearing / passing their course. They were of the view that the articles should be simple and popular in nature.

Some other suggestions given by the committee members were:-

- To include question papers, half of DipIETE and half of AMIETE course instead of complicated articles.
- To have some data on the kind of difficulties faced by IETE Students with solution, and for this even IETE Senior members, working in educational institutions could be approached/requested for preparing a booklet.
- to include views of the evaluators in the journal.
- To include connecting Committee members ( BOE, ACAD, SIC) in the discussions
- Students' feedback to be included based on SIC inputs.

4.2 The Committee members after due deliberations recommended conveying the views of the Committee to the Editor in Chief of IETE Journal of Education.

4.3 Some Committee Members were of the view that the number of Editors in the panel for each journal should be increased with the consent of present EICs.
